Summary

Motivated and detail-oriented recent graduate with a Bachelor of Computer Applications (BCA) degree, specializing in web development. Proficient in HTML5, CSS3, JavaScript, and React.js with hands-on experience in creating responsive and user-friendly web applications through academic projects.

Education

Bachelor Of Computer Application

2022-2025

Projects

Responsive Portfolio Website

- Developed a personal portfolio website using HTML5, CSS3, and JavaScript.
- Designed a responsive layout to ensure compatibility across various devices and screen sizes.

E-commerce Web Application

- Built a mock e-commerce web application as part of a university project using React.js and Redux.
- Implemented REST APIs to handle product data and user authentication.

Weather Dashboard

- Created a weather dashboard using JavaScript and external APIs to display real-time weather information.
- Implemented features to search for weather by city and view detailed forecasts.
